God's rules are there because He loves us. He knows the boundaries we need to put in our lives and He knows that following those are best. More importantly, God knows that in order for us to live our best lives, we need His instructions. Obeying God's instructions isn't to limit or restrict us, but to give us freedom. It may seem counter intuitive, but these are for our best. As we learn more about following God's way this month, we can step into the freedom that God gives us.
